Describes the world's leading approach to art and design taught at Rhode Island School of Design. At Rhode Island School of Design students are immersed in a culture where making questions, ideas, and objects, using and inventing materials, and activating experience all serve to define a form of critical thinking—albeit with one's hands—i.e. "critical making."

The preface to the first edition claims this book requires no previous exposure to electronics; this is a lie. Or, if not a lie, it at least sets you up for an extremely steep learning curve, not helped any by the authors' annoying habit of using concepts long before they're introduced, and you very much do already need to have a solid enough grounding (haha) in electricity to be able to read ...
