Bell 206 Jet Ranger Flight

The Start of the Bell 206 JetRanger. The U. S. Army needed a new light observation helicopter after the Korean War. Helicopter design was rapidly progressing during the mid-20 th century so the Army issued Technical Specification 153 – a list of capabilities for this new helicopter. It had to be able to fly an attack role, escort, transport personnel, and perform observation duties.

Bell 206 JetRanger • Disciples of Flight

The Bell 206 is a family of two-bladed, single- and twin-engined helicopters, manufactured by Bell Helicopter at its Mirabel, Quebec, plant. Originally developed as the Bell YO4-4 for the United States Army's Light Observation Helicopter program, it was not selected by the Army. Bell redesigned the airframe and successfully marketed the aircraft commercially as the five-place Bell 206A JetRanger. The new design was eventually selected by the Army as the OH-58 Kiowa. Bell also developed a seven-p
