Besides being able to read most types of ebook files, you can also use this app to get free Kindle books from the Amazon store.

### Biocentrism

Biocentrism (from Greek βίος bios, "life" and κέντρον kentron, "center"), in a political and ecological sense, as well as literally, is an ethical point of view that extends inherent value to all living things. It is an understanding of how the earth works, particularly as it relates to its biosphere or biodiversity.

### Biocentrism (ethics) - Wikipedia

Biocentrism, ethical perspective holding that all life deserves equal moral consideration or has equal moral standing. Although elements of biocentrism can be found in several religious traditions, it was not until the late decades of the 20th century that philosophical ethics in the Western tradition addressed the topic in a systematic manner.

### Biocentrism | ethics | Britannica

Biocentrism, also referred to as the biocentric universe, is a theory proposed by renowned scientist, Robert Lanza. This theory explains that life and biology are the central pieces to being, reality and the cosmos. It explains how life creates the universe rather than the other way around. Biocentrism builds upon the ideas of quantum physics.
