Configuring BDE for Windows 7 and 8. When you launch BV and get a Borland error you must set permission for the BDE. Windows 7 and 8 can be very restrictive towards applications written for the previous versions of Windows. This is the case with the Borland Database Engine (BDE), which is not capable of running in Windows7/8 unless one setting has been changed: A permission for the BDE must be given in the windows registry database.
