petroleum growth opportunities. We have a pipeline of projects and a targeted exploration campaign in the deepwater areas of Trinidad and Tobago, offshore Mexico, Gulf of Mexico and Eastern Canada.

Petroleum | BHP

Deepwater drilling, or Deep well drilling, is the process of creating holes by drilling rig for oil mining in deep sea. There are approximately 3400 deepwater wells in the Gulf of Mexico with depths greater than 150 meters.. It has not been technologically and economically feasible for many years, but with rising oil prices, more companies are investing in this area.
