Landscape was an established genre in the eastern art tradition by 4th century AD, but in the western art world, landscape painting as an independent genre began only after the era of Renaissance art. Prior to that, the scenery acted merely as a background for human activity. Netherlands was one of the first places in which landscape art became popular and the Dutch Golden Age (spanning the 17th ...

Dance With Me - Landscape and Nature Photography on Fstoppers

While the sample size in the study was not large and the results on their own should not be considered definitive, this is not the first study to show that viewing pictures of greenery can have a calming effect on people. Although the researchers acknowledge that looking at actual nature in the real world would probably have an even greater effect than a 2D image.
